SUMMARY

A driven figure that has always been strongly curious about how companies function and grow, as well as how to lead others to be excited about achieving goals. I believe experience is the best teacher and brings greater opportunities. In 2021, when the pandemic crisis was still in effect, I started joining several Business Plan Competition and it allows me to be a creative, decent decision-maker, analytical, and critical-thinker. Beside that, I also founded a Coffee Shop based in Jatiasih, Bekasi called Savaka Coffee to seek another skill of operation in D2D in FnB Business.
