Bandung, Indonesia

As a fifth-semester student majoring in Telecommunication Engineering at Telkom University, I have a profound interest in the analysis and understanding of both hardware and software in the field of telecommunications. I possess the ability to critically analyze various technical issues and enjoy challenging myself to find innovative solutions. My proficiency in working under pressure enables me to stay focused and effective in addressing complex challenges. I believe that the ability to work under pressure is key to achieving optimal results, and I have demonstrated this capability through various projects and coursework. I am committed to being a reliable and valuable contributor to your team.
